Sunday 5th March

Our trip began at 6:00 a.m. from Bretigny-sur-Orge to the Roissy airport. From there we departed to our destination : Sofia.

We arrived in Sofia Airport at around 2 p.m., where the Bulgarian hosts were waiting to take us to their homes. And our teachers were going to stay at the hotel.

Monday 6th March

Our day started having breakfast with our families and later we went to "Mihail Arnaudov" 119 High School at around 9 a.m.. There, we met the groups from the other countries : Bulgaria, Finland, Italy, Romania. We were very excited to share our first day in Bulgaria, and specially our evening with the host family.

Our partners presented us their countries, cities, schools.

Then, Bulgarian students and teachers showed us some Power Point presentations about Bulgaria.

After the lunch at the school's canteen, we had to go to the Polytechnical Museum where some activities were going to be held.

Tuesday 7th March

On that day with all the other students and teachers we went to Museiko museum where we saw funny experiments (for example : elephant toothpaste) about oxygen and carbon dioxide.

After coming back at school, we planted 5 different trees as symbols of our project. How funny it was ! This activity allowed us to discover our different characters.

Wednesday 8th March

We were invited to do some activities in the old and beautiful museum of Pernik, a former industrial city. So, we participated in pottery workshops. Another good experience was the special meal in a traditional restaurant.

Thursday 9th March

This morning, we all went to the University. How strange it was ! We met interesting scientists and we discovered old rooms and old laboratories.

After the lunch, we all took part in different team drawing workshops at school : "for a better tomorrow".

Friday 10th March

During the morning, we visited the university and some important places in Sofia.

After the visit of the University, the city and the scavenger hunt at school, we got ready for the final party. It was already time to say goodbye to all of them : we were so happy to know them on that week and so sad to leave them. But we hope we will keep in touch !

Saturday 11th March

We had a great week in Bulgaria and the five of us were going back to France with a great smile and lot of good memories. It was a little bit hard to wake up so early to be at 5 am at the airport. But we were on time with our sleepy eyes. The flight was good and so quick that we felt a little bit strange once in the Roissy Airport, as we were seeing back the French people and listening to them in our native language. Then it was time to go back to our homes and tell this unforgettable experience to our families and friends.
